Subject: Monday

It seems likely that Melissa and I are going to be fired next week so let's get a moving company in Monday (two guys) with boxes to pack up my stuff and remove it to storage. Want to get ahead of the partners! Also, I have first round funding in place so we need to move fast on the office space. Melissa wants to focus on the real space, not temporary space, so that we have something appealing to show to new employees.

Thanks.
